Payment information

- The cost of accreditation by ILM is included in the cost for all **full** SBM programmes. ILM accreditation is extra for Individual Units (if you intend to continue to the full qualification after completing a single unit then accreditation is included in the full programme cost).
- If you study one or more **Individual Unit(s) (IU)** and then decide to complete the whole programme later (you must start the full programme within a year of starting the IU) then part of the cost (**£214 + VAT**) that you have paid for the IU(s) will be deducted from the full programme cost (applicable for one individual unit only); conditions apply - please email us for further details and for prices if you want to study more than one individual unit. IUs are offered subject to availability.

Note: you can only gain the full Level 4 qualification by enrolling onto the full programme at some point.

- Blended learning** is a combination of online study and face-to-face regional workshop events. Fully online study is via online learning methods only (online resources, web conferencing, online discussions, online support, etc.). Assignments are submitted electronically.
- Payment must be received **before** the start of a programme, individual unit or other course.

Contd. over

- 5 **Two-staged payments** (60:40 split) are available for some full SBM programmes and include a small premium to cover extra administration costs, etc. If this two-stage option is selected, the second invoice becomes payable midway through a programme, e.g. normally during month 7 or 8 for a 15-month programme.
- 6 If you would like **two bill payers to be invoiced**, e.g. your school and yourself, then a surcharge will be applied. You must therefore select the higher rate **two-staged payment** option on your application form.
- 7 **All prices exclude (but are subject to) VAT.**
- 8 For details and prices of the separate SBM higher **apprenticeships** we also offer please see www.sbmpartnership.org.uk , or contact us for information. The programmes shown on this price list cannot be funded by apprenticeship funds.
- 9 All programmes are offered subject to final applicant numbers.

Please visit www.sbmpartnership.org.uk for full details of all programmes (including SBM higher apprenticeships), start dates and to read our essential **Key Documents** information for applicants.
